

Are you interested in promoting action on climate change?

DRCC have obtained funding from Derbyshire County Council to help promote the 'everybody's talking about climate change' campaign.

The idea:

- Hold a public meeting ,
- Show a film - either the Al Gore film 'An inconvenient truth' or the short film 'Carbon Weevils' produced by Forkbeard Fantasy. Both are interesting and stimulating.
- Lead a discussion
- Offer an opportunity to pledge to reduce your personal carbon footprint
- Give out the Everbody's Talking' reusable shopping bags and information pack on actions.

*DRCC are able to support your meeting
with a grant of up to £300**

to cover hall hire, refreshments, equipment, and other incidental costs.

DRCC will provide you with a suggested programme, advice about licensing, and with details of where to hire any equipment you need to show the films. We will also liaise with your District Authority energy advisors and other interested parties.

If you would like to take up this offer, please return this offer by email, or by post to the address below, (also the contact for more information).

Yes I /we would like to run an *everybody's talking* discussion and film night
